- A Bus Tour of the South Island
— 8 Days Duration.
Fly from Wellington to Christchurch.
Tour Bus will return to Christchurch
July 1, 1983.

WELCOME TO WELLINGTON

An opportunity arrives each year for hire and rental people, traders people and overseas visitors to get together and make contact with each other to share ideas and experiences.

The N.Z. Sixth Annual Conference to be held in Wellington this year, holds a wonderful opportunity for not only that, but it also allows a break for friendly relaxation and something perhaps a little different.

The city itself is in fine style for a convention and with the present building boom going on it is surely worth a visit.

Come along and have a capital time in a capital city.

Peter Lawrence
President H.S.A.N.Z.

TRAINING YOUTH FOR OUR INDUSTRY

— 9.00 am Tuesday

Geoffrey Thompson

Keynote address by:

Geoffrey Thompson

(MP for Horowhenua)

Geoffrey Thompson was senior partner of a law firm in Waikanae and Paraparaumu before he entered Parliament as the member for Horowhenua in 1978.

Currently he is chairman of the Government Caucus Committee on Employment. Last year chaired a Task Force on Youth Employment which reported to Cabinet on current options available in the field of youth employment.

In February of this year Mr Thompson undertook a two week visit to Japan, sponsored by the Japanese Government. A particular interest he pursued while in Japan was their employment of youth.

Mr Thompson will address delegates on progress being made now in the area of youth training with particular empha-

sis given to the Hire Industry and its needs.

What Government assistance is envisaged for apprentices in the future?

What Department of Labour involvement and guidance is currently available in this field?

Will we see the introduction of Youth Rates?

What can we learn from Japan's youth training programmes?

What are the responsibilities of the Hire Industry to the advancement of its youth?

These and many other associated areas will be addressed during this session.

Yes! There will be a question time for delegates to put their questions to Mr Thompson.

CROWN CONTROLS LTD. — Manufacturers of Access Equipment — 1.30 p.m. Tuesday 21.

Come visit the company that manufactures a most comprehensive range of battery electric materials handling equipment.

A leader in their field, Crown Controls Ltd. will open their workshop for inspection by Convention Delegates.

The Levin workshop manufactures access equipment for the New Zealand, Australian and Asian markets.

Delegates may be interested to inspect an 82 feet high

truck mounted tower unit currently under construction, or the trailer mounted series of mobile hydraulic platforms.

This is your opportunity to see the quality and workmanship that is built into Crown Equipment.

Forklifts from 500 kg to 3000 kg, Scissor Lifts and Hydraulic Work Platforms are all in the range of equipment manufactured by Crown Controls Ltd. at Levin.

STAFF TRAINING FOR THE RENTAL INDUSTRY

— 10.30 a.m. Tuesday

As our industry grows we generate a need for additional skilled staff within the industry.

But from what source do we acquire these people?

Our current practice of "buying" staff from within the industry is in itself a short term solution to the problem. What we need is a long term programme aimed at providing our skilled labour needs.

Dorothy Coates of the Outdoor Power Equipment Association will address delegates at the Convention on the topic of Apprenticeship and Staff Education as they have been applied by her association.

Questions posed at this session may stimulate debate on the need for similar or joint programmes to be adopted for use in the rental industry.

A WORLD OF OLD SILVER

— 1.30 p.m. Tuesday.

Over many years as a collector of Silverware, Peter Lawrence has created a very interesting and comprehensive collection which will be on display at the Convention.

Peter, through his hobby as a collector, has made a study of **A World of Old Silver** and his address will prove to be of great interest to all who attend.

Peter Lawrence

EVERYTHING FOR CLEANING FROM A MOP & BUCKET TO A V8 POWERED SWEEPER

- Power Sweepers

ALPHABETICAL LIST OF EXHIBITORS

ADVANCE INTERNATIONAL CLEANING SYSTEMS LTD
576 Great South Road, Greenlane, Auckland
PO Box 12182
Tel. 590 379

Advance International Cleaning Systems Ltd can supply everything for cleaning, from a mop and bucket to a V8 powered sweeper.

On their convention display stand they will include the new **Advance 'Convertamatic' 20 Floor Scrubber/Polisher**, a new concept in floor restoration and maintenance.

Advance 'Convertamatic' 20 Floor Scrubber/Polisher with Mains Power or battery option, is a unit which will convert from a scrub and wet vacuum to a polish and dry vacuum in less than 2 minutes. To convert, simply remove the scrub brush and squeegee, attach a polish brush and pickup tool and insert a filter bag into the recovery tank.

Advance Machines, a division of Henry Berry Ltd manufacture in New Zealand under licence to the Advance Machine Co., Spring Park Minnesota U.S.A.

Advance Machines have branches in Auckland, Wellington and Christchurch.

ATLAS COPCO (NZ) LTD
Tunnel Grove, Lower Hutt
Tel. 68 6049

BAY TEXTILES LTD
64 8th Avenue, Tauranga
Tel: 88 022 or 81 526

Manufacturers of marquees, Bay Textiles Ltd have established themselves as leaders in the design and manufacture of marquees and tents for the Hire Industry.

Their extensive experience in marquee hire is reflected in the quality and performance of their product which they are consistently improving and updating. Special attention is being paid to supporting services and promotional material for the hire industry to maximise the revenue earning potential for little or no extra outlay.

COMPAIR (NZ) LTD
698 Great South Road, Penrose, Auckland
Tel: (09) 59 1359

CompAir New Zealand will be exhibiting a range of portable air compressors and tools on their stand at the convention.

On display will be a Compact 75 and a CR175A with outputs of 75 and 175 cfm respectively.

Both machines are silenced and are powered by Perkins diesel engines.

Their compact size makes them ideal for use by hire fleet operators and many hundreds are already in service throughout New Zealand and Australia.

Zitec 20 and 27 road breakers will also be on show. These lightweight, heavy duty breakers feature non-conducting polyurethane casings which dampen noise and vibration and integrated mufflers which reduce noise levels to 84 dBA.

CORY-WRIGHT & SALMON LTD
Branches throughout New Zealand
Tel: 856 169 Telex: NZ 3311

Cory-Wright and Salmon will be exhibiting a wide range of equipment at the convention which will be of great interest to all hire companies. Products will be of their own manufacture and agency lines and will include the highly successful Tokai Trash pumps, generators, insulating transformers, welders, outdoor lighting, a wide range of tools, heaters, waterblasters and many more.

CROWN CONTROLS LIMITED
23 Andromeda Crescent, East Tamaki
PO Box 51475 Auckland
Tel: (09) 274 4069 Telex: 60553

Crown Controls Limited, New Zealand's largest manufacturer of Access Equipment, will be exhibiting a number of models in their current range.

Formerly Gensam Engineering, Crown will have on display their top selling Mobile Hydraulic Platform — the ideal solution to most everyday access problems.

Crown will also be introducing to the New Zealand market the Economy Hi-Jacker and Polecat Access Platforms. These models cater for all access problems up to a working height of 7.62 metres (25 feet).

DE NEEFE SIGNING SYSTEMS LTD
PO Box 51.042 Tawa, Wellington
Tel. (04) 328 252

DIS INDUSTRIES LTD
Auckland • Wellington • Christchurch
592 109 847 957 41 485

Exhibiting the following equipment range: Kawasaki engines 2hp thru 20hp. Long life engines suitable for original equipment and re powers.

Kawasaki generators: 550 watt thru 5000 watt. Poulan chain-saws: 32cc thru 85cc. Poulan edgers, hoes and trimmers — 3 models. Skil power tools: full range from cordless drills, hammer drills, planers, saws, grinders and sanders.

ESSENCE ELECTRONICS LIMITED

ESSENCE Electronics manufactures sound and lighting equipment for the semi professional — professional user. First time exhibitors, they will be displaying disco consoles, home party-PA systems, lighting and lighting control equipment. The range of equipment exhibited being designed specifically for the hire market.

Their latest product, the Home Party-PA System, called THE MINI CONSOLE, has built-in microphone, tapedeck, turntable, five channel mixer and 100 watt slave amplifier. Ideally suited to schools, fairs, parties, conferences and any function requiring a professional sound with a minimum of fuss. Small enough to fit on the front seat of the average family car.

GIBSON & PATTERSON (NZ) LTD
Adelaide Road, Wellington
Tel. (04) 843 854

H.C. GROSSMAN & CO LTD
1 McColl Street, Newmarket, Auckland
PO Box 9319
Tel. (09) 545 106

HIRE KINGDOM (WHOLESALE) NZ LTD

7-16 Atkin Avenue, Mission Bay
Tel: (09) 585 4444

Introducing the new 'Paper Tiper' system of wallpaper removal. The cutting tool and solution have taken 3 years to develop and test. Patented cutting discs, with adjustable depth control, penetrate the wallpaper right to the glue line to allow penetration by wallpaper removal solution DCX2.

Also on display our Hiretech Equipment for rental:— HT8 floor sanders, H17 edgers, wallpaper steamers, hire carpet shampoo machines and double concentrate solutions.

INDEPENDENT TRADERS LTD

22 Webb Street, Wellington
Tel: (04) 858 943

Independent Traders Ltd, will be exhibiting their full range of ITL Health and Fitness Equipment including the ITL Row-Rider, Vita Cycle, Sculla and Treadmill, along with both the Ablec and 5BX Belt Massager Units and the Repco Cycle Ergometer. All these products are proven performers with Hire Companies throughout New Zealand.

INDUSTRIAL & ELECTRICAL PRODUCTS LTD

18 Heather Street, Parnell, Auckland
PO Box 37-313 Parnell
Tel. 794 980

From the TOKU Pneumatic Co Limited of Japan we introduce a range of concrete breakers and hand held Roto hammers.

The TPB range of concrete breakers are available in 60, 80 and 90 lb ratings. These heavy duty tools are suitable for the biggest jobs. These models accept standard 1 1/4" shank bits and chisels, making compatibility with other brands no problem. Some of their advantages include: Replaceable bushing in the front head: Quick change type forged steel retainer: Drop forged cylinder and a block-type piston hammer with large single diameter.

See our range of Vital chain hoists also exhibited on our conventions stand.

KANGO WOLF POWER TOOLS NZ LTD

Unit 7, 10 Olive Road, Penrose, Auckland
PO Box 12-697

See the range of Kango Wolf Electric Tools. The only range to be approved by the Standards Association of New Zealand.

In particular, look at Kango 637 and 327 with its unique module replacement feature. Also the new Wolf jig saw and percussion drill/screwdriver.

Don't miss out on the special conference prices.

LOADLIFT EQUIPMENT LTD

PO Box 38492, Lower Hutt
Tel. (04) 683 132

Tel. (063) 77 009

PRIME INTERNATIONAL LTD

PO Box 9699 Newmarket, Auckland
Tel. (09) 790 466

Mr Koll Negeshi, Managing Director of Prime Corporation of Japan, will join the staff of Prime International Ltd, NZ distributors of Prime equipment on the convention stand.

On display will be the Prime range of vibrating rammers, plate compactors, concrete cutters and power trowels. Also Prime submersible pumps and concrete vibrators which are powered by Robin EY20D engines. A range of Diamond tipped cutting wheels will also be displayed.

Prime equipment, to be introduced at the convention, is ideally suited for rental use.

RICHMOND ASSOCIATES LTD

228 Cambridge Terrace, Naenae, Lower Hutt
PO Box 35075 Naenae
Tel. 674 632

As well as a range of concrete saws, Richmond Associates will exhibit their diamond core drilling equipment. This equipment has also been designed with the operator in mind by an engineer with many years of contracting experience. For example, the drilling rig is easily dismantled into components and reassembled, making for maximum portability and ease of handling.

The range of equipment covers —

Vertical Drilling: Drilling rig and stands, Vacuum pad assemblies and pumps, Ceiling Jacks.

Horizontal Drilling: Wall mountings and jack.

Pipe Drilling: Pipe Base Assembly.

All units come with optional electric motors.

SCHLAGE (NZ) LTD

Penrose Road, Avondale, Auckland
Tel: 88 5096 Telex: 21491

Schlage (NZ) Ltd, a wholly owned subsidiary of the Ingersoll Rand Company of U.S.A., although having been associated with the New Zealand market for many years, are exhibiting this year as an autonomous company for the first time.

The exhibit will include the P175WD portable air compressor as a representative of the complete range of models covering 100 - 250 cfm in the smaller range of units and 370 - 2000 cfm in the larger range.

The P175WD is powered by a Deutz air cooled diesel engine and has a capacity of 175 cfm. All "P" range compressors have a noise level of 75 dba at 7 metres.

Also construction and air tools will be on display peculiar to the hire industry.

SANDING AND GRINDING SPECIALTIES LTD.

199 Archers Road, Takapuna, Auckland 10
PO Box 33-180 Takapuna
Tel: 444 5159 Telex: NZ 60477

Sanding and Grinding Specialties Ltd as exclusive New Zealand agents for Flexovit (Australia) Pty Ltd will be exhibiting a wide range of Cutting Off and Depressed Centre Grinding Wheels.

This Dutch based company has captured a large share of the Australian market since commencing manufacture of Flexovit products in Australia.

The introduction of this product to the New Zealand market has been very successful principally due to the high quality and wide range of wheels available for specific grinding or cutting applications.

TRADESMAN PRODUCTS LTD

85A High Street, Waipana
Tel: 343

We will exhibit four (4) new models of our cold water blasters in the mid pressure range, 1000 - 1500 psi, in both petrol and electric powered units.

The capacity of these models varies from 11 litres to 13 litres per minute, they are extremely light and compact, and are filling a gap in the local market very successfully.

Special Convention discounts will apply.

Look at all the great extras you get from

TRACTOR EQUIPMENT CO LTD
357 Tremaine Avenue, Palmerston North
Tel: 78 006 Telex: NZ 31557

Tractor Equipment Coy will be exhibiting a range of Vibromax Compaction Machines.

The introduction of two new models to the range will certainly interest the Hire Industry.

The W50 Double Vibratory Roller

This diesel powered hydrostatic drive roller has infinitely variable travel speed control — forward and reverse — and velvet smooth move off and braking in both directions. Easily transportable, the double drum W50 gives twice the productivity of the single drum roller with added operation safety and comfort. The W50 is easily steered with its vibration-free guide bar which incorporates a patented "Dead Man's" handle.

The AT20 Plate Compactor

Designed for maximum compaction efficiency, this multi purpose reversible plate is ideal for use in trenches. Unobstructed sides compact right up to the edges. Rugged and well proven, the AT20 is reliable under the toughest of conditions.

Special "Convention" prices will be available to the Hire Industry.

FRANK M. WINSTONE (MERCHANTS) LTD
PO Box 2195 Auckland
Tel. 33 409 Telex NZ 60408

On the Frank M. Winstone (Merchants) Ltd stand will be the highly respected Winstone Waterblasters with the most popular models sold to hire companies being displayed.

We will also display two new models, these being the **HOTSTAR** which is a Hot and Cold unit producing 7 mpa (1900 psi) at 11 litres/minute (2.4 gal) with a maximum temperature of 97° Cel. The other new model 2904P being a petrol driven cold water unit using a 14 hp electric start motor producing 20 mpi (2900 psi) at 15 litres/minute (3.3 gal).

As Australian agents for the world renowned **INTERPUMP**, Winstones are today using this brand of pump on all of their models. Interpump have a wide range of high pressure pumps and componentry which are available to hire companies to re-pump existing plant. These units are virtually maintenance free and are very competitively priced.

We welcome any enquiry regarding our waterblasters and Interpumps to Duncan Garland and Lance King on our stand, or in the future directly to our office.

WYATT MACHINE TOOLS (R.U.P.E.S.) NZ LTD
33 Broadway, Newmarket, Auckland
Tel. 541 645 543 882

Wyatt Machine Tools distribute throughout NZ the Italian made R.U.P.E.S. range of industrially rated electric and pneumatic powertools. Our full range of Orbital Sanders and Angle Grinders are robust in construction, light in weight, double insulated and are well reputed by hire companies.

All orbital sanders are available with dust extractors suitable for NZ's new air pollution requirements.

Rotary Orbital Sander Model BR5 sands in half the time of other units, is unequalled and most popular with hire companies.

R.U.P.E.S. model S80 and S130 Dust extractors come with vacuum cleaner, assorted cleaning heads and are popular hire units.

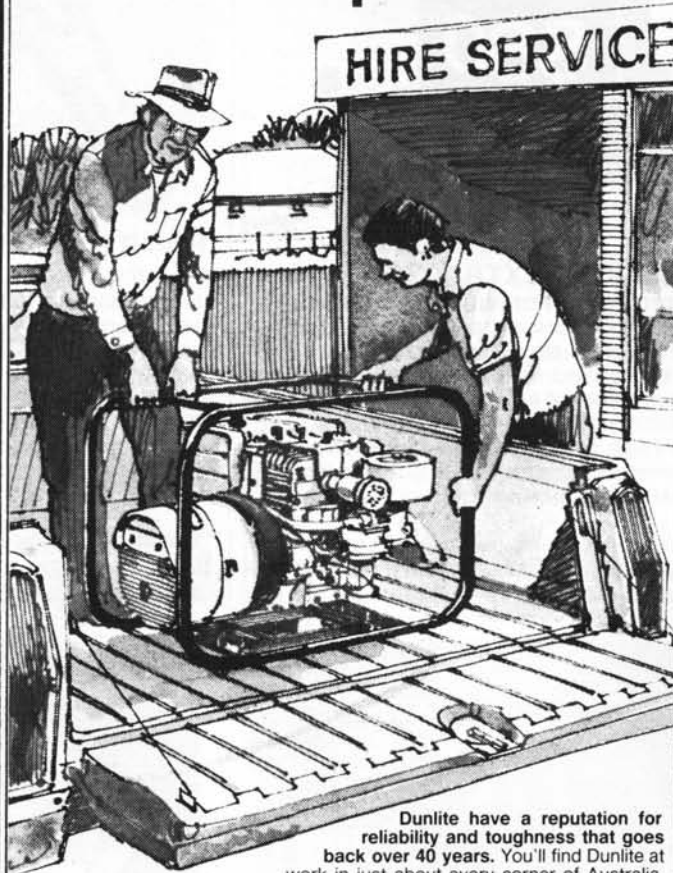

We will display Industrial Spray Guns, made by Sharpe U.S.A., the world's largest spray gun manufacturer — ideal for rental centres. (Even amateurs can spray professionally with a Sharpe Spray Gun).

See our specials and our demonstrations by professionals at the convention.

DUNLITE

The Australian made way to generate more profit!

Dunlite have a reputation for reliability and toughness that goes back over 40 years. You'll find Dunlite at work in just about every corner of Australia. That's because Dunlite generators keep coming up with the goods time and time again, even in the worst possible conditions. The toughness and reliability of Dunlite power generators makes them ideal for hire and rental work!

Dunlite parts and service are just across the road, not across the sea. Dunlite has Australia covered when it comes to parts and service. When the generators you hire out are designed and made right here, it makes it easy to keep them hard at work earning money when other generators might be still waiting for parts.

Dunlite offer a huge range of generators from 1 kVA to 375 kVA. Dunlite has every kind of generator that you could ever want to hire out — and more. And because Dunlite is Australia's leading power generation specialist making and designing **ONLY** power generators, they can supply generators, complimentary control panels and sound attenuated canopies as a standard equipment package.

KAWASAKI MODEL KG5000 GENERATOR

The Kawasaki KG5000 has three unique features. The automatic voltage regulator (AVR) maintains steady voltage. Automatic idle saves fuel, and minimises noise while electric starting, an option to the recoil method, provides effortless, convenient starting. The key start also ensures greater security when the generator is left on the job.

An oil-lever sensor is a valuable safeguard, and the large capacity fuel tank (10 litres) ensures six hours of running.

This unit is exhibited by
DIS Industries Limited

HAND HAMMER MODEL TH7

From the TOKO Pneumatic Co Limited of Japan, claimed to be the largest specialised manufacturer of airtools in Japan, we introduce the T.H. 7 Roto Hammer.

The T.H.7 hand held hammer weighs only 3.4 kg and has a speed of 300 rpm and 2600 blows per minute. This popular model is claimed to have the strongest drilling capacity available and is competitively priced.

This unit is exhibited by
Industrial & Electrical Products Ltd.
● Use inquiry Card 16

NEW CONCEPT IN FLOOR MAINTENANCE

The advance 'Convertamatic' 20 is a floor scrubbing machine which lays a detergent, scrubs up the dirt, leaving the ground clean and dry. Widely used in supermarkets, warehouses, service-station forecourts, freight depots, schools, hospitals, engineering works, bakeries, cleaning contractors and all food processing works.

Twenty inches wide and available in mains powered for extended hire operation or battery powered for special applications.

This unit is exhibited by **Advanced International Cleaning Systems Limited.**
● Use inquiry Card 22

RICHMOND CONCRETE SAWS

The Richmond Concrete Saw incorporates a unique patented mechanism for outstandingly steady, precise forward movement of the machine. An effortless up-and-down motion of the handles, working on a chain and ratchet linkage, causes friction wheels to drive the rear ground wheels forward at a variety of speeds most suitable for the type of cutting being carried out.

Depth cut control, adjusted from the operating position, gives easily maintained and accurate depth of cut.

Drive can be disengaged and handles locked for manoeuvring.

Positive braking for starting and downhill cutting.

This unit is exhibited by
Richmond Associates Ltd.

ZX4000 LIGHT CONTROLLER

Designed specifically for the hire market, our ZX4000 zero crossing light controller has lots to offer.

ZX4000 is designed to provide various light sequences and sound-light effects which are selected using switches on the front panel of the unit. Operating conditions are indicated by red and yellow LEDs above each switch.

The system incorporates a single phase 4 channel zero crossing effects generator providing sequencing, strobing and frequency selective sound-light functions.

Light and portable, the unit is 322 mm wide, 90 mm high and 290 mm deep and weighs 2.75 kg. Our controller is a rental winner.

This unit is exhibited by
Essence Electronics Ltd.

THIS MARQUEE WILL MAKE YOU MONEY!

Baytex Marquees are distinctive and attractive enough to make people want to hire them. You can charge good hire rates and get more frequent hires into the bargain.

Baytex Marquees are a perfect compliment to your expensive party hire asset. Make your functions look a million dollars in a Baytex Marquee.

Never be stuck for a shortage of space. Baytex Marquees comprise a comprehensive system of interchangeable components. You can add to or subtract from them at will. They're foolproof.

Baytex Marquees have an outstanding record for economy of design, efficiency of performance and durable good looks. They offer a variety of colourful walls and provision for your Company name or Logo to be clearly marked on the valance.

Baytex Marquees make minimum demands on your hire staff — ultimately that's money in your pocket.

THE ITL TREADMILL

Just released in February this year and having immediate success with the Hire Trade. With a full bed of rollers, it does away with the age-old problem that used to go with the Belt Treadmill, mainly tensioning, running off, replacement belts etc. This light weight unit (only 8 kilos) is tough and rugged and a must on any health and fitness hiring catalogue.

NEW MODEL 150 K13 WASHER

Although Tradesman Products Ltd is currently undergoing a change of ownership due to ill health of the present owner, the future of the business appears to be well assured, as we have established a very positive share of the NZ market.

This resulted from an adopted policy of flexibility, our continuous investigation of market requirements, combined with regular design improvements.

'PAPER TIGER' WALLPAPER REMOVAL SYSTEM

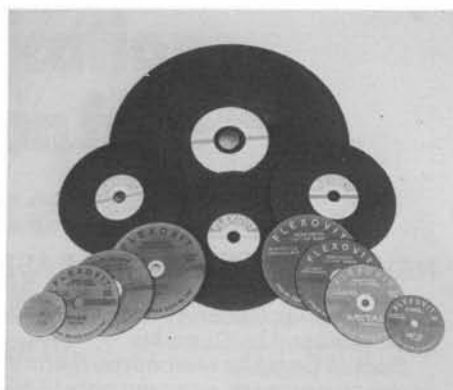

So new there are World Patents Pending.

The Paper Tiger disc cutting tool with adjustable depth control is **guaranteed** to do what it promises to do, to penetrate right to the glue line with elongated Herringbone cuts approximately 22mm apart. The disc cutters, supplied in pairs DC2 (2 cutters), DC4 and DC6 (6 cutters) have extension handles. The largest unit can be an aid for steamer hire.

Suitable for removal of all wallpapers: Foil, Anaglypta, Flock, Washable, Gloss Acrylic, Duplex, Vinyl, Overpainted, Embossed.

A retail kit contains a guide to removing wallpaper, the Paper Tiger disc cutting tool DC2 with short handle and depth control and 250 mls of DCX2 double concentrate **extra action** solution, which makes 2 buckets (more or less 4 gals) for 120 square yards.

STIHL 038AVE CHAIN SAWS

The photo shows Stihl 038AVE one of 16 different Stihl chain-saw models. Rating 61 cc capacity, the 038AVE features on/off ignition switch, choke and ½ throttle all on one master control switch. Up to 20" bar.

This unit is exhibited by C.M. Malfroy & Co Ltd.

● Use inquiry Card 28

THE W50 DOUBLE VIBRATORY ROLLER

This diesel powered hydrostatic drive roller has infinitely variable travel speed control — forward and reverse — and velvet smooth move off and braking in both directions. Easily transportable, the double drum W50 gives twice the productivity of the single drum roller with added operator safety and comfort. The W50 is easily steered with its vibration-free guide bar which incorporates a patented "Dead Man's" handle.

This unit is exhibited by Tractor Equipment Co Ltd.

● Use inquiry Card 2

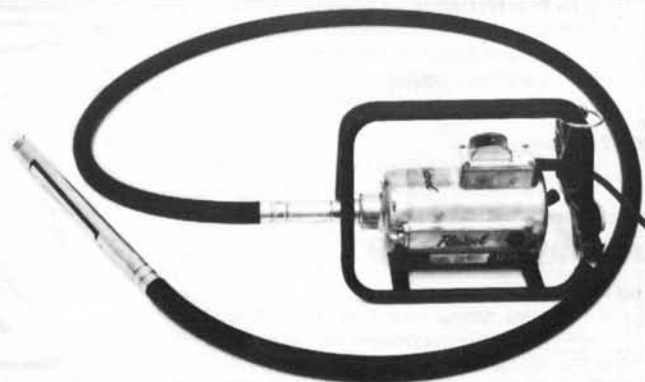

PORTABLE ELECTRIC VIBRATOR

The series of vibrators using the recently released UV4 electric power unit is the result of a lengthy programme of design, development and field trials by Flextool (Aust) Pty Ltd.

The lightweight immersion vibrator with its flexshaft drive and permanently coupled electric motor provides the utmost in portability. The shoulder harness allows the motor to be slung at hip level making this a one man vibrator ideally suited to limited access concrete pours such as columns.

This unit is exhibited by Cory-Wright & Salmon Ltd.

● Use inquiry Card 1

BAY TEXTILES LTD: MANUFACTURERS OF MARQUEES

Bay Textiles Ltd design and manufacture Marquees for use by the Hire Industry.

Standard Marquees are available from a very comprehensive range, while custom designed units can be made to suit any special requirements.

Baytex hopefully will have a marquee on display for the exhibition, erected in close proximity to the Convention Exhibition for delegates to view.

This item is exhibited by Bay Textiles Ltd.

Banquet.

Presentations, entertainment and dancing. Venue: Ballroom 5.

Will it be WOE or GROW — 8.30 a.m. Wednesday

Joe Byrnes

Joe Byrnes is recognised by many as the most dynamic and interesting Conference speaker in Australia. He is a speaker with a message, who can excite and motivate you with Sales and Marketing ideas to increase profits. He can inspire and stimulate you with sheer energy and enthusiasm to increase personal profit. He has been profiled in the ABC's Four Corners program, written for Australian Business Fortnightly, addressed the Hire and Rental Association of NSW several times, and worked in conjunction with a number of local Rental companies. He knows our Industry. He is our Key-note Speaker.

Halting the Time Bandits 8.30 a.m. Thursday

Stig Ehnborn

Time is money, the saying goes, and mismanaged time costs you and your business money. Effective Rental people hardly ever do what is generally expected according to the textbook. Behaviour, not theories and intentions, create results in our industry, and in this session every delegate will get some very useful ideas to test immediately based on what we Rental people really do! Mr. Stig Ehnborn, B.E., Chalmers University of Technology, Sweden address will have you well on the way to being happily and creatively organised.

Stress at Work — 11.00 am Wednesday

Recession is a corporate pressure cooker, and Rental people fighting to stay afloat are coming under increasing stress. And those aware of the dangers are getting fit to cope. Fit or unfit, Dr. John Tickell, medical director and co-founder of Corporate Health Evaluation and Research Centres (Sydney and Melbourne) talk will relate to the need for Exercise, Diet

and relaxation to help us on the job. As a Stress and Heart attack victim said, "Ultimately, the choice is individual, and fairly clear. Keep up the pace without looking after yourself and your health will suffer. The intensive-care ward has a certain acoustic quality that drives messages deep into the subconscious." Can you wait that long?

Party Rentals Workshop

— 11.00 am Thursday 11th
Local Party Rental identities Greg Page and Gordon Johnstone have planned an open forum problem solving session to be conducted separate to the main seminar program. This session will deal with the day to day operational problems in party rental.

MACHINERY & EQUIPMENT REGISTER

Now for the first time, the Rental Industry has a register of Machinery and Equipment which is available for sale, to trade or to buy.

Wanted to Sell Listings provide an opportunity for our industry suppliers and rental yards to advertise surplus or superseded stock, to Market Trade-ins or to promote re-conditioned equipment.

Wanted to Buy Listings will help the Rental owner find equipment or spares within the industry.

Wanted to Trade Listings will provide a viable method for Rental yards to re-structure their inventories.

The cost of using our Machinery and Equipment Register is about as inexpensive as you can get.

We offer to list your item in (2) two consecutive issues of Hire & Rental Australasia on a No Deal — No Charge basis.

All applications for inclusion in the Machinery and Equipment Register must be made on our Official Application Form which may be obtained by writing to The Editor, Hire & Rental Australasia, P.O. Box 136, Bulleen, 3105, Australia or by telephone to (03) 850 5878.

The Editor,
Hire & Rental Australasia,
P.O. Box 136,
BULLEEN, 3105, Australia.

ABEL CONCRETE MIXERS

Fowler Industries Ltd has recently acquired the rights to manufacture and distribute the range of Abel Concrete Mixers. The range includes mixers for the Handyman and a mobile mixer specifically design for Rental Centres, Contractors and Tradesman.

The Handyman mixer is a 1.5 cubic foot model which is available in a variety in a variety of combinations with either electric or petrol driven motors.

The model 302 is a 3 cubic foot model and in addition to the standard models is available in a form suitable for towing behind a car or truck. These mixers are also available with electric or petrol motors.

These mixers carry a design mark award issued by the New Zealand Industrial Design Council and come in a knocked down form ready for assembly.

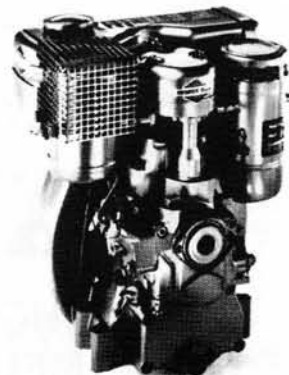

The Abel range of mixers are widely used by Hire and Rental Companies throughout New Zealand and have been exported to USA, Papua New Guinea, Malaysia and the Pacific Islands.

Distributors are sought in Queensland, New South Wales and Victoria and enquiries should be made to:

Lincoln arc welding equipment

Even tougher than the treatment it gets

Lincoln. It's the equipment designed and built to take rough treatment in tough places.

Like mining. Construction sites. Oil rigs. Pipelines. Outback and offshore. Anywhere the going's likely to be tough or the weather extreme. Anywhere that breakdowns would be more than just inconvenient.

It's this take-it-for-granted toughness and reliability that makes Lincoln the only serious choice for hire companies.

You can't change people's habits. But you can hire them the one brand of arc welding equipment tough enough to shrug off rough handling and careless operators.

That means Lincoln. Tough gear to beat.

Low maintenance, go-anywhere equipment that's proven itself time after time. Equipment that keeps on going long after the others give up.

Look into Lincoln today. Discover a whole family of sturdy, dependable arc welding equipment. From the mobile muscle of the mighty 400/500AS diesel welder. Through a comprehensive range of smaller welders and power sources, guns and accessories. To the versatile, low-cost Lincwelder 225, a handy all-rounder for welding and auxiliary power.
